

# Birdwatch

## Main Index:

To filter all of the entries simply click on the arrow in the column you want to search by, deselect the 'select all' box, and check the tick-boxes that you want to filter by. You can filter by several different columns in one search. To search for a specific word, click on the arrow in the column that you want to search by and scroll down to the 'text filters' tab. Click on 'contains...', and then type in the word or words that you are searching for. This is not case-sensitive. To start a new search, click on the arrows in the columns that you have searched by and click on the 'clear filter' button. This will revert the index back to its original settings.

To buy any of these issues, head to [www.pocketmags.com](http://www.pocketmags.com). Our app and these issues are also available from the Apple and Android app stores
